Container Shipping Outlook

World Economic Outlook

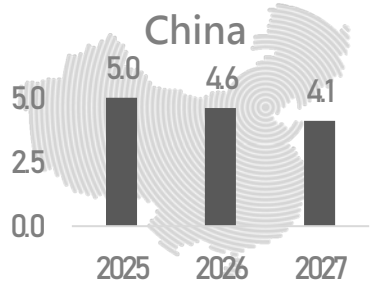

The shadow of war, technological innovation, and stable growth

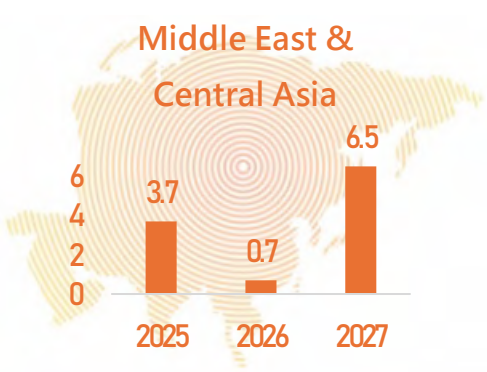

GROWTH PROJECTIONS BY REGION

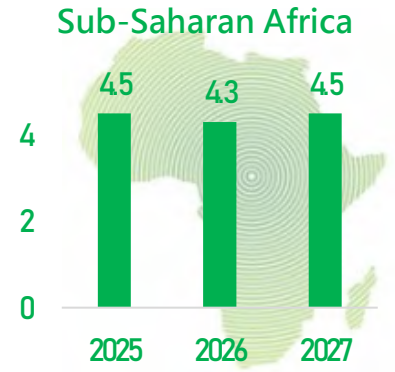

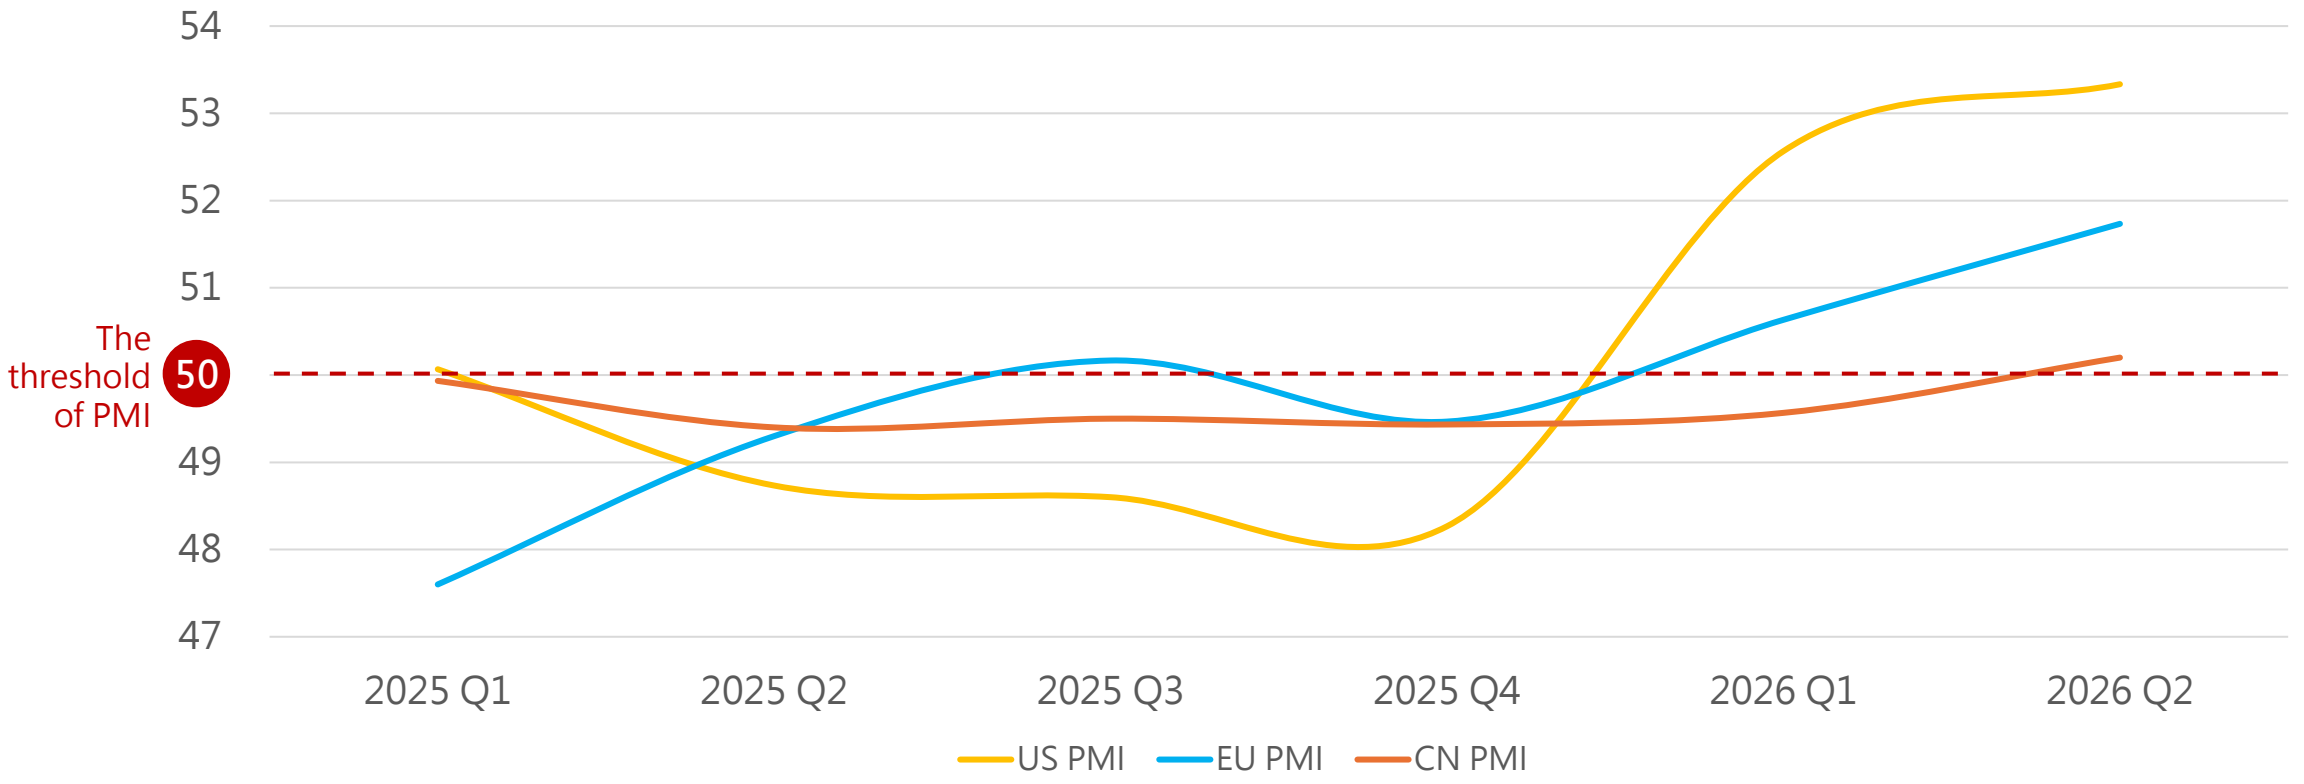

Source: IMF WORLD ECONOMIC OUTLOOK UPDATE, JULY 2026

PMI of major economies

With the US and Europe rising and China stabilizing, the economy is recovering.

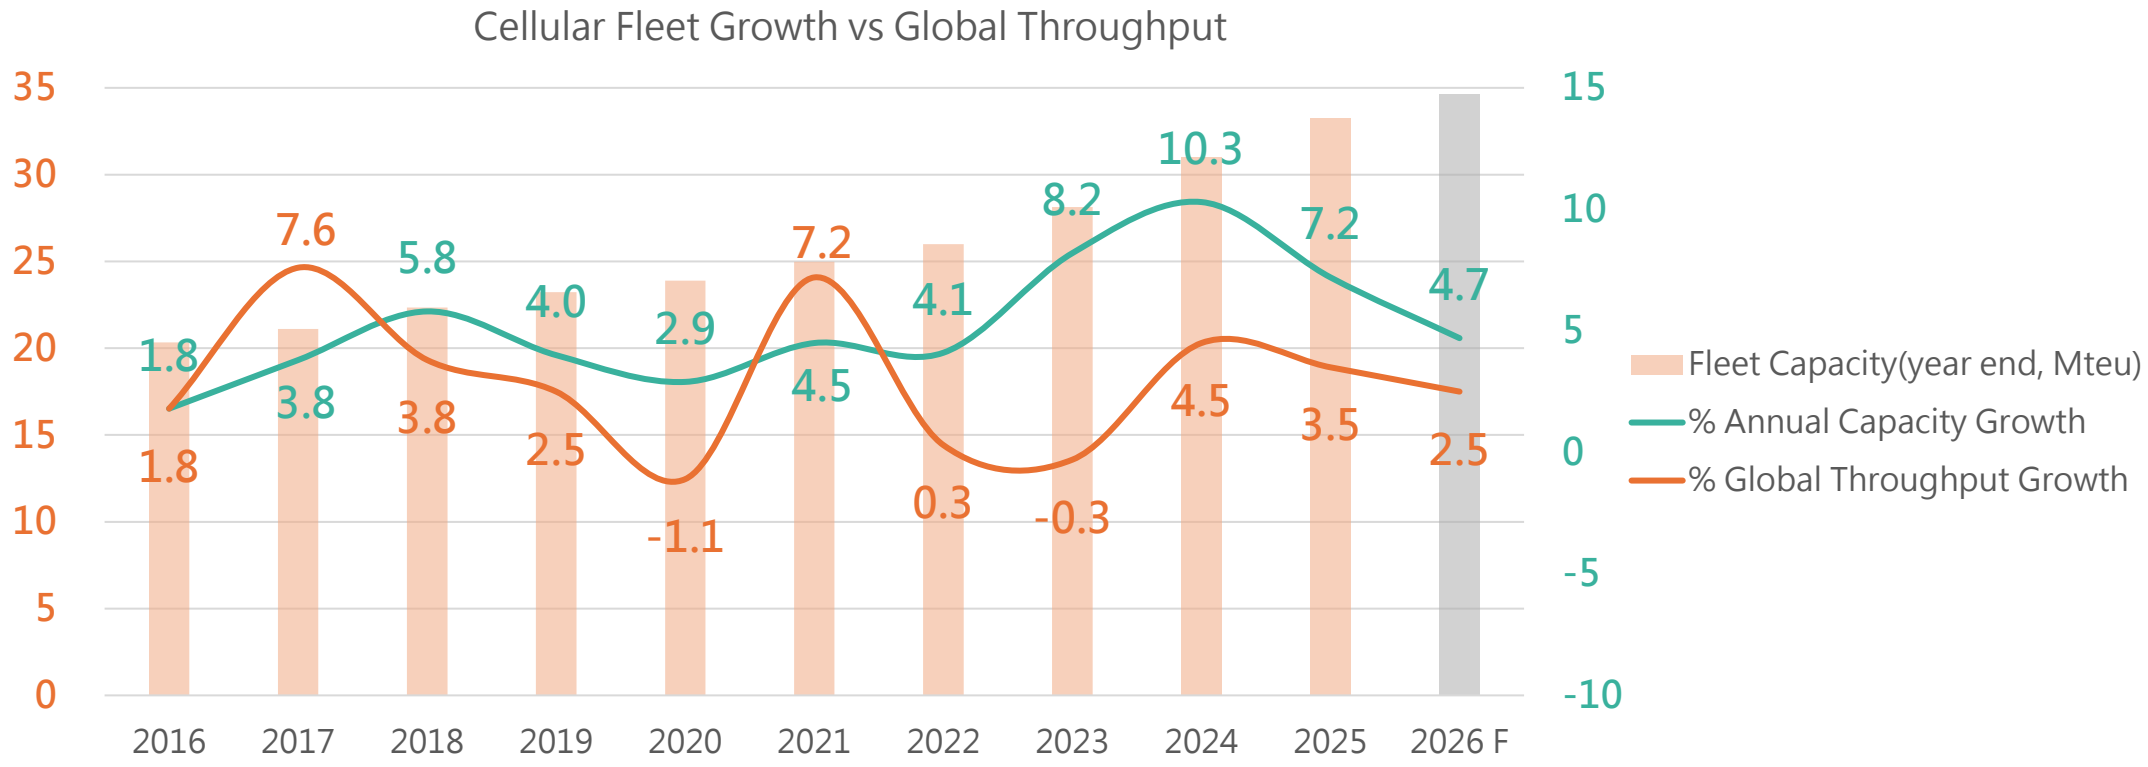

Given the unpredictability of economic shifts, the focus must shift from forecasting to fostering operational resilience and agility.

Supply & Demand

Effective capacity, Network structure, Turnaround efficiency, and Regional trade flow.

Effective Capacity parameters: Cargo space classification, Detour losses, Port congestion, Blank sailings and Cancelled voyages, weather disruptions, Dry-docking and maintenance, Slow steaming.

Source: ALPHALINER MM SEP, 2026

Geopolitical risks & Extreme weather

Strait of Hormuz, Panama Canal, Rhine River, and Ocean navigation safety.

Rhine River

Russia-Ukraine War

Strait of Hormuz

US-China strategic competition

Hurricane

Middle East situation

Typhoon

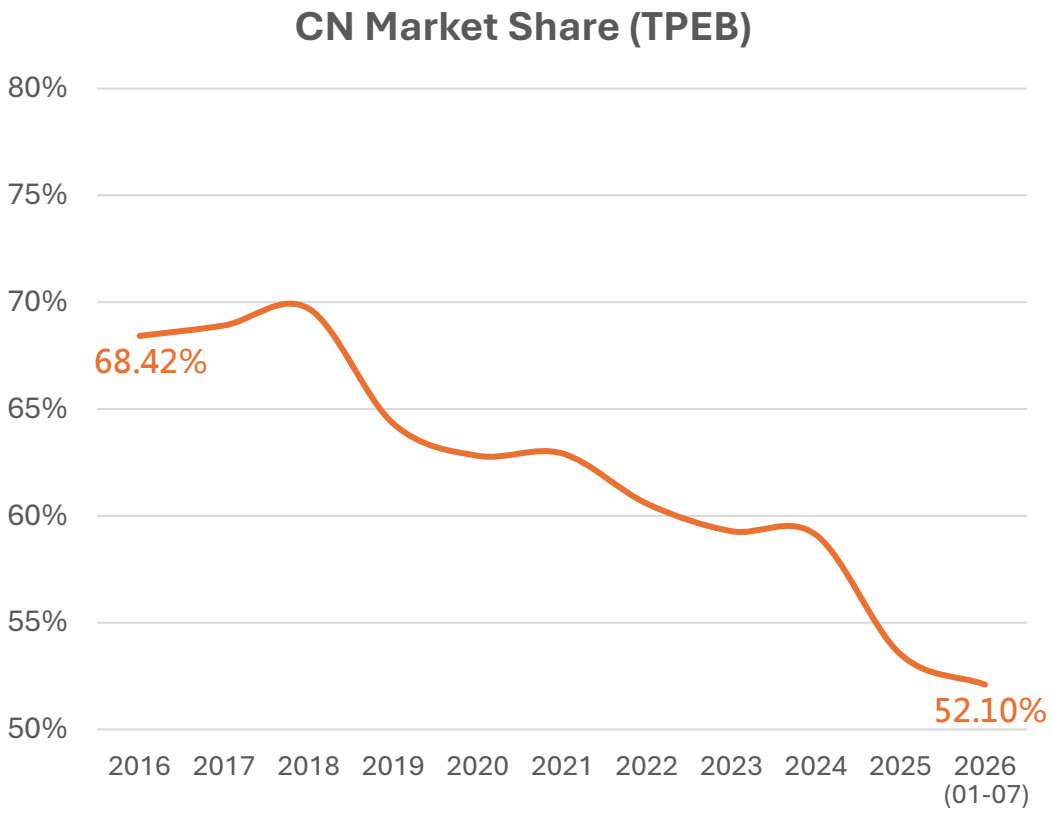

Panama Canal

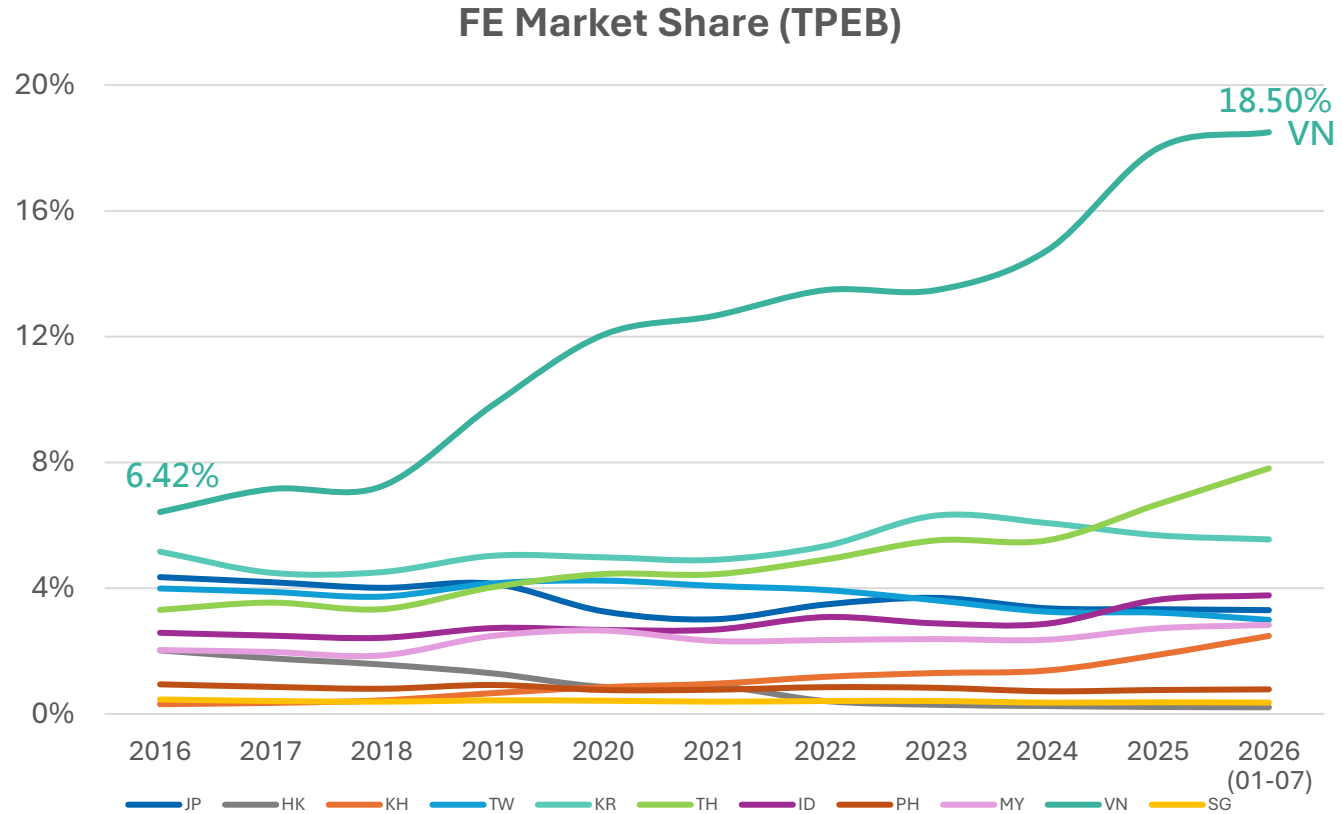

Protracted wars, strategic competition, and extreme weather continue to drive up transportation costs and increase uncertainty in shipping schedules, ports, and supply chains.

Global supply chains and economic security

Security vs. Efficiency; The Great Transshipment Scam (USA)

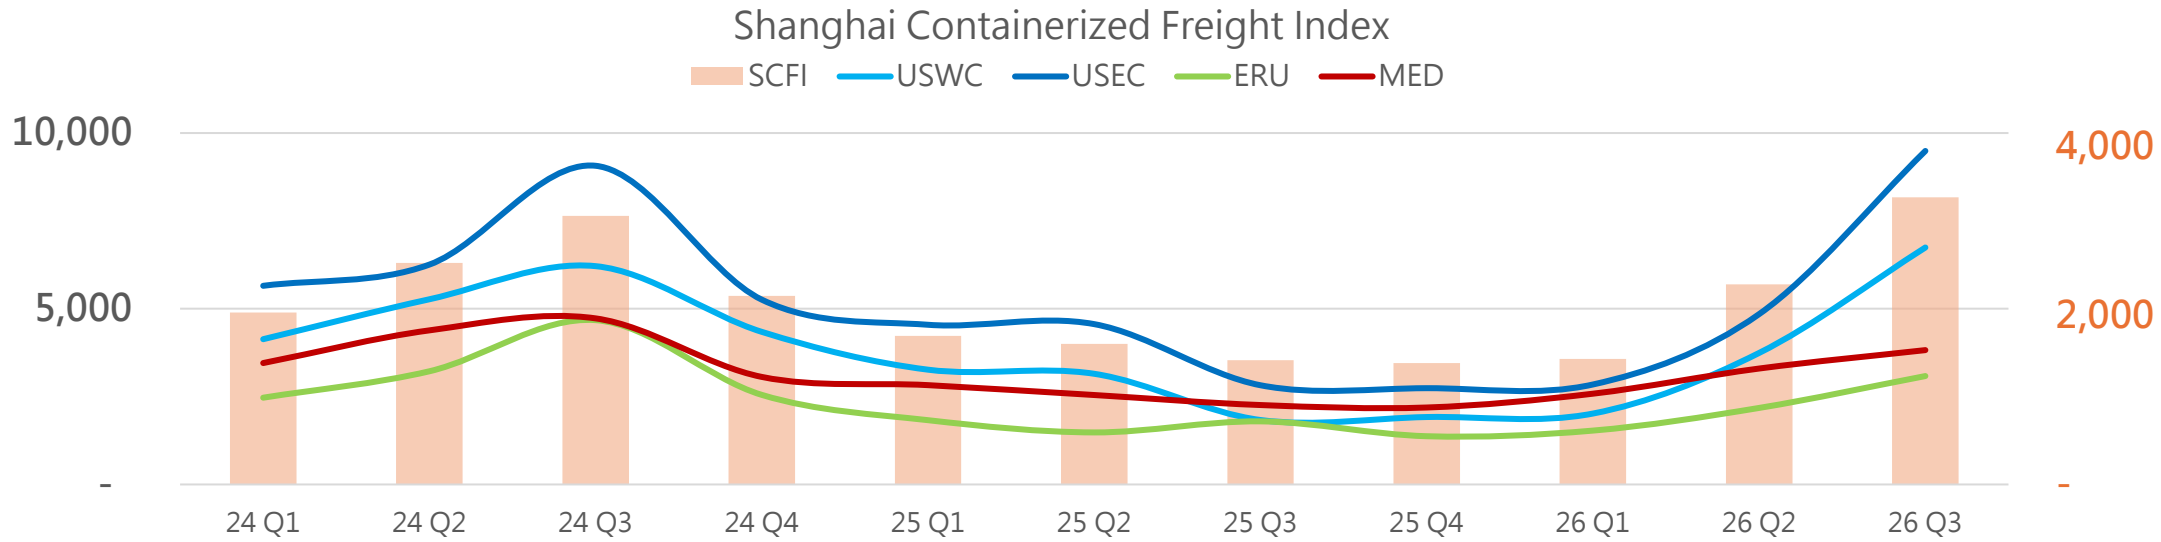

Supply : China + 1

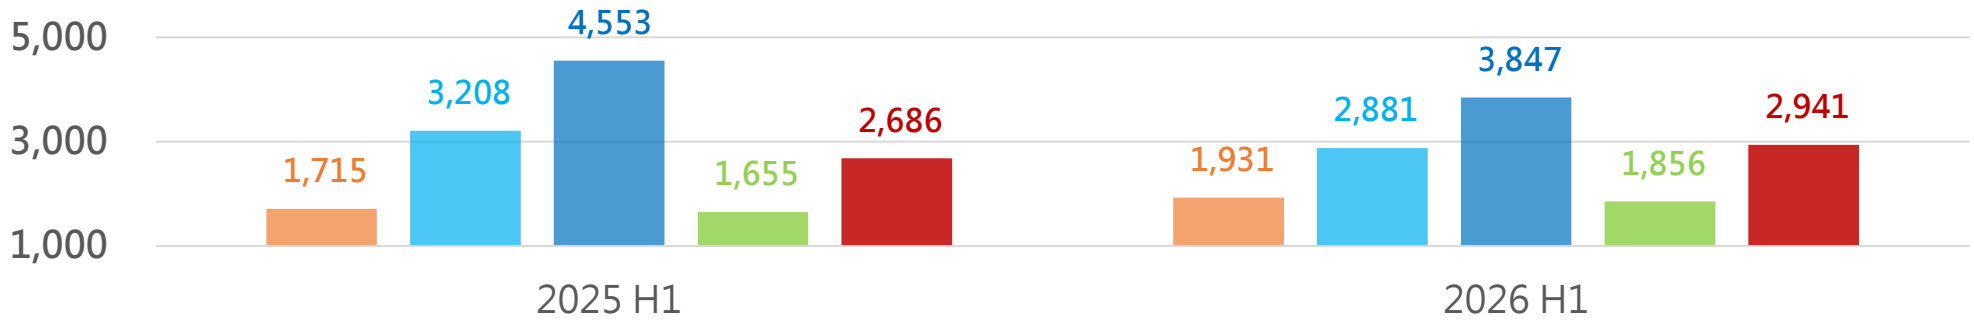

Demand : USA + 1
