- (2) For the nine months ended July 31, 2026 and 2025, and for the three months ended July 31, 2025, Acquisition, disposition and other charges include non-cash amortization of fair value adjustment for inventory in connection with the acquisition of Juniper Networks, which was recorded in cost of sales.

- (5) Effective at the beginning of the first quarter of fiscal 2026, HPE implemented an organizational change by (i) merging the Server, Hybrid Cloud, and Financial Services business segments into a new segment named Cloud & AI and (ii) transferring the Telco and Instant On businesses to Corporate Investments and Other from Networking. The Company reflected these changes to its segment information retrospectively. These changes had no impact on Hewlett Packard Enterprise's previously reported consolidated net revenue, net earnings, net earnings per share or total assets.

- (7) For the nine months ended July 31, 2025, the diluted net EPS adjustment includes the impact to Non-GAAP net earnings attributable to HPE for the dilutive effect of preferred stock.

## **Use of non-GAAP financial measures**

To supplement Hewlett Packard Enterprise's condensed consolidated financial statement information presented on a GAAP basis, Hewlett Packard Enterprise provides non-GAAP financial measures, non-GAAP gross profit, non-GAAP gross profit margin, non-GAAP operating profit (non-GAAP earnings from operations), non-GAAP operating profit margin (non-GAAP earnings from operations as a percentage of net revenue), non-GAAP income tax rate, non-GAAP net earnings attributable to HPE, non-GAAP net earnings attributable to common stockholders, non-GAAP diluted net earnings per share attributable to common stockholders, and FCF. Hewlett Packard Enterprise also provides, non-GAAP diluted net earnings per share, non-GAAP operating profit growth, and FCF.

These non-GAAP financial measures are not computed in accordance with, or as an alternative to, GAAP in the United States. The GAAP measure most directly comparable to non-GAAP gross profit is gross profit. The GAAP measure most directly comparable to non-GAAP gross profit margin is gross profit margin. The GAAP measure most directly comparable to non-GAAP operating profit (non-GAAP earnings from operations) is earnings from operations. The GAAP measure most directly comparable to non-GAAP operating profit margin (non-GAAP earnings from operations as a percentage of net revenue) is operating profit margin (earnings from operations as a percentage of net revenue). The GAAP measure most directly comparable to non-GAAP income tax rate is income tax rate. The GAAP measure most directly comparable to non-GAAP net earnings attributable to HPE and non-GAAP net earnings attributable to common stockholders is net earnings. The GAAP measure most directly comparable to non-GAAP diluted net earnings per share attributable to common stockholders is diluted net earnings per share attributable to common stockholders. The GAAP measure most directly comparable to FCF is cash flow from operations. Reconciliations of each of these non-GAAP financial measures to their most directly comparable GAAP measures for this quarter and prior periods are included in the tables above or elsewhere in the materials accompanying this news release.

## **Usefulness of non-GAAP financial measures to investors**

Hewlett Packard Enterprise believes that providing the non-GAAP financial measures stated above, in addition to the related GAAP measures provides investors with greater transparency to the information used by Hewlett Packard Enterprise's management in its financial and operational decision making and allows investors to see Hewlett Packard Enterprise's results "through the eyes" of management. Hewlett Packard Enterprise further believes that providing this information provides Hewlett Packard Enterprise's investors with a supplemental view to understand the Company's historical and prospective operating performance and to evaluate the efficacy of the methodology and information used by Hewlett Packard Enterprise's management to evaluate and measure such performance. Disclosure of these non-GAAP financial measures also facilitates the comparisons of Hewlett Packard Enterprise's operating performance with the performance of other companies in the same industry that supplement their GAAP results with non-GAAP financial measures that may be calculated in a similar manner.

## **Economic substance of and material limitations associated with non-GAAP financial measures used by Hewlett Packard Enterprise**

Non-GAAP gross profit and non-GAAP gross profit margin are defined to exclude charges related to the stock-based compensation expense, acquisition, disposition and other charges, severance costs associated with the cost reduction program, and H3C divestiture related severance costs. Non-GAAP operating profit (non-GAAP earnings from operations) and non-GAAP operating profit margin (non-GAAP earnings from operations as a percentage of net revenue) consist of earnings from operations or earnings from operations as a percentage of net revenue excluding the items mentioned above and charges relating to the amortization of intangible assets, and impairment charges. Non-GAAP net earnings, Non-GAAP net earnings attributable to HPE, non-GAAP net earnings attributable to common stockholders, and non-GAAP diluted net earnings per share attributable to common stockholders consist of net earnings or diluted net earnings per share excluding the charges previously stated, as well as gain on sale of a business, gain on sale of equity interest, adjustments for equity interests, gain or loss on equity investments, litigation judgments, other adjustments, and adjustments for taxes. Non-GAAP net earnings attributable to HPE and non-GAAP diluted net earnings per share attributable to common stockholders includes preferred stock dividends added back to non-GAAP net earnings attributable to HPE. The Adjustments for taxes line item includes certain income tax valuation allowances and

separation taxes, the impact of tax reform, structural rate adjustment, excess tax benefit from stock-based compensation, and adjustments for additional taxes or tax benefits associated with each non-GAAP item.

Hewlett Packard Enterprise believes that excluding the items mentioned above from the non-GAAP financial measures provides a supplemental view to management and investors of its consolidated financial performance and presents the financial results of the business without costs that Hewlett Packard Enterprise's management does not believe to be reflective of ongoing operating results. Exclusion of these items can have a material impact on the equivalent GAAP measure and cash flows thus limiting their use as analytical tools. These limitations are discussed below or elsewhere in the materials accompanying this news release. More specifically, Hewlett Packard Enterprise's management excludes each of those items mentioned above for the following reasons:

- Stock-based compensation expense consists of equity awards granted based on the estimated fair value of those awards at grant date. Although stock-based compensation is a key incentive offered to employees, HPE excludes these charges for the purpose of calculating these non-GAAP measures, primarily because they are non-cash expenses, and the Company's internal benchmarking analyses evidence that many industry participants and peers present non-GAAP financial measures excluding stock-based compensation expense.
- HPE incurred costs related to its acquisition, disposition and other charges. Charges include expenses associated with acquisitions, non-cash amortization of fair value adjustment for inventory in connection with the Merger, exit costs associated with disposal activities, transformation costs (credits), and disaster (recovery) charges. HPE excludes these costs because the Company considers these charges to be discrete events and does not believe they are reflective of normal continuing business operations. Acquisition charges were driven by costs associated with the Merger and miscellaneous disposition related charges.
- HPE incurred severance and other charges pursuant to cost management initiatives. HPE excludes these charges because management does not believe they are reflective of normal continuing business operations. HPE believes eliminating these adjustments for the purposes of calculating non-GAAP measures facilitates the evaluation of its current operating performance.
- HPE incurred H3C divestiture related severance costs in connection with the disposition of issued share capital of H3C held by HPE. The divestiture resulted in decreased future investment earnings and cash dividend inflows resulting in a decision to implement offsetting cost savings measures. These measures include severance for certain of the Company's employees. The non-GAAP adjustment represents our costs to execute these related exit actions to offset the loss in equity earnings and related cash flows.
- HPE incurs charges relating to the amortization of intangible assets and excludes these charges for purposes of calculating these non-GAAP measures. Such charges are significantly impacted by the timing and magnitude of the Company's acquisitions. HPE excludes these charges for the purpose of calculating these non-GAAP measures, primarily because they are non-cash expenses and the Company's internal benchmarking analyses evidence that many industry participants and peers present non-GAAP financial measures excluding intangible asset amortization. Although this does not directly affect HPE's cash position, the loss in value of intangible assets over time can have a material impact on the equivalent GAAP earnings measure.
- In fiscal 2025, HPE recorded non-cash impairment charges for the goodwill associated with its Cloud & AI (excluding Financial Services) reporting unit and the impairment of certain fixed assets. HPE believes that these non-cash charges do not reflect the Company's operating results and is not indicative of the underlying performance of the business. HPE excludes these charges for purposes of calculating these non-GAAP measures to facilitate the evaluation of the Company's current operating performance and comparisons to past operating results. Although this does not directly affect the Company's cash position, the loss in value of goodwill over time can have a material impact on the equivalent GAAP earnings measure.
- Gain on sale of a business represents the gain associated with certain disposal activities. On December 1, 2024, HPE completed the disposition of the Company's Communication Technology Group which resulted in a gain of \$248 million.

The Company's management considers this divestiture to be a discrete event and believes eliminating this adjustment for the purposes of calculating non-GAAP measures facilitates the evaluation of its current operating performance.

- Beginning in fiscal 2026, HPE stopped reporting H3C earnings in our non-GAAP results due to the divestiture of our H3C investment. In May 2026, the Company sold the remaining equity interest in H3C, which resulted in a gain of \$444 million and is included in the fiscal 2026 adjustment Gain on sale of equity interest. The Company believes that eliminating these amounts for purposes of calculating non-GAAP financial measures facilitates the evaluation of its current operating performance.
- HPE excludes gains and losses (including impairments) on its non-marketable equity investments because the Company does not believe they are reflective of normal continuing business operations. These adjustments are reflected in Interest and other, net in the Condensed Consolidated Statements of Earnings. The Company believes eliminating these adjustments for the purposes of calculating non-GAAP measures facilitates the evaluation of its current operating performance.
- Hewlett Packard Enterprise utilizes a structural long-term projected non-GAAP income tax rate in order to provide consistency across the interim reporting periods and to eliminate the effects of items not directly related to the Company's operating structure that can vary in size, frequency and timing. When projecting this long-term rate, HPE evaluated a three-year financial projection. The projected rate assumes no incremental acquisitions in the three-year projection period and considers other factors including the Company's expected tax structure, its tax positions in various jurisdictions and current impacts from key legislation implemented in major jurisdictions where HPE operates. For fiscal 2026, HPE will use a projected non-GAAP income tax rate of 14%, which reflects currently available information as well as other factors and assumptions. For fiscal 2025, HPE used a projected non-GAAP income tax rate of 15%. The non-GAAP income tax rate could be subject to change for a variety of reasons, including the rapidly evolving global tax environment, significant changes in the Company's geographic earnings mix including due to acquisition activity, or other changes to the Company's strategy or business operations. HPE will re-evaluate its long-term rate as appropriate. HPE believes that making these adjustments for purposes of calculating non-GAAP measures, facilitates a supplemental evaluation of the Company's current operating performance and comparisons to past operating results.
- FCF is defined as cash flow from operations, less net capital expenditures (investments in property, plant & equipment ("PP&E") and software assets less proceeds from the sale of PP&E), and adjusted for the effect of exchange rate fluctuations on cash, cash equivalents, and restricted cash. FCF does not represent the total increase or decrease in cash for the period. Hewlett Packard Enterprise's management and investors can use FCF for the purpose of determining the amount of cash available for investment in the Company's businesses, repurchasing stock and other purposes as well as evaluating its historical and prospective liquidity.

#### **Compensation for material limitations with use of non-GAAP financial measures**

These non-GAAP financial measures have limitations as analytical tools, and these measures should not be considered in isolation or as a substitute for analysis of Hewlett Packard Enterprise's results as reported under GAAP. Some of the limitations in relying on these non-GAAP financial measures are that they can have a material impact on the equivalent GAAP earnings measures and cash flows, they may be calculated differently by other companies (limiting the usefulness of those measures for comparative purposes) and may not reflect the full economic effect of the loss in value of certain assets. Hewlett Packard Enterprise compensates for these limitations on the use of non-GAAP financial measures by relying primarily on its GAAP results and using non-GAAP financial measures only as a supplement. Hewlett Packard Enterprise also provides a reconciliation of each non-GAAP financial measure to its most directly comparable GAAP financial measure for this quarter and prior periods within this news release and in other written materials that include these non-GAAP financial measures, and Hewlett Packard Enterprise encourages investors to review those reconciliations carefully.
